Illinois Department of Public Health - Proposed Additions to the Licensing Requirements for the Licensing of Hospitals

The Illinois Department of Public Health proposes to amend the requirements for the licensing of hospitals promulgated in accordance with the provisions of the Hospital Licensing Act (Ch. 111½, Sec. 142 et seq., Ill. Rev. Stats. 1975). This proposed action would add a requirement to Part I defining "physician's assistant" and a requirement under Part III providing for granting of privileges to medical staff members for the use of his/her physician's assistant. These additions are proposed because of the Illinois Physician's Assistants Practice Act and use of physician's assistants in licensed hospitals.

These proposed revisions to the rules and regulations for the licensing of hospitals were approved as the result of action by the Hospital Licensing Board (as required in Section 151 (c) of the Hospital Licensing Act) at its July 11, 1977 meeting. If any interested persons wish to present their views concerning this intended action, they may do so by sending written comments to the attention of: Mr. Robert F. Bilstein, Administrator, Hospital and Ambulatory Surgical Treatment Center Section, Illinois Department of Public Health, 525 West Jefferson Street, Springfield, Illinois 62761. The Department will consider all written comments received by the Department within 30 days beginning on the date of publication of this notice.

The texts of the added requirements follow:

(1-5.1) 1. (q) Physician's Assistant: A person currently licensed under the Physician's Assistants Practice Act and thereby enabled to perform medical procedures under the supervision of a person licensed to practice medicine in all its branches under "The Medical Practice Act."

(3-1.1) 1. (q) For determination of additional privileges that may be granted a staff member for the use of his/her employed licensed physician's assistant in the hospital in accordance with policies and procedures recommended by the medical staff and approved by the governing authority.

The staff member requesting this additional privilege shall submit for review and approval by the medical staff and the governing authority of the hospital (a) the curriculum vitae of the identified physician assistant, (b) where needed copies of protocols approved by the Department of Registration and Education, and (c) written protocol with description of duties, assignments and/or functions, and including description of manner of performance within the hospital by the physician's assistant in relationship with other hospital staff.
